Slow Pitch
2 Umpire System

2 Umpire System (Rotation) – Slow Pitch

The 2 umpire system requires that umpires move into positions appropriate for each play. The information referring to positioning and the calling of plays is written for ideal circumstances and for the best possible positioning for the majority of plays. Proper positioning can be achieved if you think in terms of 'keeping the play in front of you'. In order to do this there are **four basic elements** that must be kept in your vision.

1. **The ball**
2. **The defensive player making the play**
3. **The batter runner or runner and**
4. **The base or area where the above elements meet**

Three Basic Principles

There are three basic principles that apply to the Two Umpire Rotation System; the division principle, the infield/outfield principle and the leading runner principle.

1. The Division Principle

The Home Plate Umpire takes all calls at Home Plate and third base and the Base Umpire takes all calls at first and second bases.

Exceptions

1. When the Batter-Runner goes to third base, the Base Umpire takes Batter Runner to third
2. If you must deviate, communicate your deviation to your partner

2. The Infield/Outfield Principle

When the ball is in the infield, the Base Umpire moves or stays in the outfield.

When the ball is in the outfield, the Base Umpire moves to a position in the infield.

3. The Runners Principle

The base umpire’s starting position is off the second base person, shading towards the lead runner or 1st base if no runners on. It is the responsibility of **both umpires** to ensure **all** bases are covered in Tag-Up (re-touching the base after a fly ball is first touched on a catch) situations.

Both umpires should watch for, Tags, Obstruction, Interferences, Touched Bases, Runners passing each other, Blocked Balls, etc.

Prior to the pitch the Base umpire should stand relaxed. He should be focused on the pitch and the batter, be ready and mobile for a possible play. During a call it is important to stop and focused on the play in front of you.

Conventions

The conventions used to describe the situations in this manual are:

1. The plate umpire is referred to as ‘Plate’ or ‘P’ and the base umpire is ‘Base’ or ‘B’.
2. Runners at 1st, 2nd and 3rd bases are indicated with ‘R’
3. 1st Movement of the umpire’s is 
- 2nd Movement of the umpire’s is 
- 1st Movement of the ball is 
- 2nd Movement of the ball 
(indicating all potential secondary plays available to the fielders)
4. Icons used in this manual:

Plate Umpire Starting Position

In all cases, the plate umpire's starting position and actions are as follows:

- Sweeps the home plate and checks that the field is clear and ready for play.
- Should take a position, in the slot between the catcher and the batter.
- After each pitch, he should call Ball or Strike, give signals as required and then relax, while maintaining good general awareness.
- Responsible for calling:
 - Illegal Pitches
 - Fair/Foul Balls
 - Batting infractions
- On each batted ball into fair territory exit from behind the catcher via the left (even on a left handed batter) and rotate to the proper position.
- If the ball is close to the foul line, move to the line and straddle the line to make the fair/foul call.
- On infield hits, with no runners, trail the batter-runner 1/3 of the way to 1st base; with runner on 1st base only, trail runner ¼ way to 1st base then move to foul territory on the 3rd base side of the diamond for a possible call on R1 at 3rd base; and with runners on 2nd or 3rd base, stay in foul territory down the 3rd base line and watch the batter-runner to 1st base

Movements are always dictated by the principle of keeping the four elements in front of the umpire.

Base Umpire Ready Position

The Base Umpire should assume a ready position by:

- Facing SQUARE TO THE BATTER prior to the pitch, always being able to see both the pitcher and the home plate area.
- As the pitcher prepares to pitch, the umpire should place his feet a comfortable distance apart (at least shoulder width), stay still and relaxed.
- As the pitcher starts the pitch adopt the 'ready' position by unlocking the knees slightly, resting your weight lightly on the balls of the feet and the hands drawn close to the belt line in front of the body.
- Remain in this position until the catcher catches the ball or the ball is put into play.

Once the ball is hit or thrown, the umpire pushes off on the balls of his feet and moves to position for a potential play.

Base Umpire Position for Calls

Starting position (Rotated off of the foul line) The Base Umpire should take a position "off of the second baseman and shading toward the lead runner. With no runners on, the starting position is "off of" and on the 1st base side of the 2nd base person shading toward 1st base. With runners on base (1st base only, 2nd base only, 3rd base only, 1st and 2nd base only, 2nd and 3rd base only or bases loaded) the starting position is off of the second base person, shading toward the lead runner. On force plays call from 5 – 6 meters (18 feet). On tag plays move to 3 meters

(10-12 feet) to see the tag and make the call. At the start of the pitch focus on the pitch and the batter, be prepared for a possible play. During a call it is important to stop and keep the four elements in front of you, i.e. ball, base, defensive player and offensive player.

Between Inning Position

Starting Position

Plate Umpire

- After the Plate meeting, stand in a position just off the third base line in Foul Territory approximately one third of the way to third base
- Hustle the teams on and off the field
- Stand facing the diamond with your hands relaxed at your sides
- Observe the Warm-Up Pitches (three allowed for each pitcher in the first innings and with each new pitcher. Then three warm up pitches are allowed at the start of each half innings)
- Let the Catcher know when the second to last Warm-Up Pitch has been thrown, then say 'one more Catcher'
- Replenish extra ball supply
- Sweep the home plate and then assume a position behind the Catcher after the Warm-Up Pitches

During the first half inning and when there is a change of pitchers, you may wish observe the Warm-Ups after making the line-up changes and announcing them to the Official Scorer

Base Umpire
